This January the Annual Conference of Indiana Soil & Water Conservation Districts (SWCDs) will bring together over 450 farmers, landowners, agronomists, advisors, and conservationists for three days of a virtual conference. This time will allow attendees to gather online from anywhere in the world for twelve breakout and six roundtable sessions along with an inspirational opening session, networking, Exhibitor Exploration and more!

We want to promote you as one of our partnering SPONSORS this year!

This “#IN Conservation Together” Conference will provide connection, education and a virtual trade show. There are several sponsorship levels with many great opportunities to display your logo and “share” your sponsorship of this statewide conference (see page 2 for benefit details).

**Tradeshow Booth Space:** As an added benefit, our *Platinum, Champion, Collaborator and Partnership* level sponsors have the opportunity to promote their organizations during our Exhibitor Exploration time each day of the conference with a tradeshow booth space. During this virtual tradeshow, exhibitors can post videos, demonstrations, set up one-on-one meetings, upload documents and their organization’s contact information.

The sky’s the limit!
